

### What are the criteria for selection?

Technical aspects of your application and the Added Value of your application for Public Administration.

### When you will be informed of the results of the selection phase?

18th October, 2016 for Sant Cugat del Valles.  
25th October, 2016 for Corby.  
9th November 2016 for Karlshamm.

### Which are the Outcomes of the Hackathon?

CloudOpting Concepts, Docker and Puppet practical notions, Automatic Installation and be in the CloudOpting Catalogue.

### What will happen with my Service after

You will be in the CloudOpting Catalogue at least until 28 Feb 2017.

### After the Hackathon my application may be contracted through the marketplace?

At this time we cannot guarantee anything. We can only anticipate that steps are being made to ensure the exploitation of the results of the Cloudopting Project.

### Why 3 different Hackathon?

To ensure international participation.

### Why 2 different day for each Hackathon?

To be able to cover the ambitions of the two main user of the CloudOpting Platform : the Services Providers and the Service Subscribers.

### Should I prepare something beforehand?

Your service should be up and running before being migrated in order to have something to migrate to CloudOpting Platform.

### Do I need to bring something to the Hackathon?

You will need to bring your own laptop.

if you have any questions about the participation process, please get in contact with us at:
